### SUMMARY

I am an enthusiastic and innovative Android Developer looking to apply my technical skills in a dynamic team environment. With strong fundamentals in Android development and hands-on experience in mobile and web application development, I excel across multiple platforms. My pride lies in delivering high-quality projects, strong self-management, and teamwork.

### EDUCATION

#### Diploma In Computer Technology

Sanjivani K.B.P Polytechnic

08/2020 - 08/2023

#### B.Tech with honors in AI & ML

Sanjivani College of Engineerig

08/2023 - 08/2026   Kopargaon

### STRENGTHS

#### Self-management & Attention to Detail

Excellent self-management and attention to detail.

#### Teamwork & Communication

Skilled at working in collaborative environments.

### SKILLS

Android development	Dart	Data Structures			
database management	Flutter	Java	Mobile Apps	MongoDB	
PHP	Python	SQL	Web Development		

### EXPERIENCE

#### Editorial Intern

Vaave

10/2023   Kopargaon

Information Technology & Services

- Collaborated with the editorial team to create and edit engaging content for blogs, newsletters, and social media platforms, enhancing brand visibility and user engagement

#### In-Plant Training in Python Development

ESTEEM

06/2022   Kopargaon

Software Development

- Completed a 4-month in-plant training program centered on Python development, where I gained valuable, hands-on experience in real-world applications. Contributed to projects that involved data processing, automation, and web development, effectively applying Python programming principles. Improved my problem-solving and debugging skills by actively participating in coding exercises and collaborating on various projects

### PROJECTS

#### Enhancing Feedback Management with Sanjivani

01/2023 - 12/2023

An Android & PHP-Based System for managing feedback effectively.

- Revamped the feedback management system on Android, which cut user response time by 25% and boosted feedback submissions by 40% in just 3 months through enhanced integration improvements..

#### Streamlining Temple Bookings

01/2023 - 12/2023   Mangalgraga

A solution aimed at simplifying the booking process for temples.

- Designed and developed a PHP-based backend and Android application to simplify temple booking processes, enabling 5,000+ users to book services seamlessly
- Focused on improving accessibility and user interactions.

#### Implementing CO/PO Mapping through Python and Web Integration

01/2023 - 12/2023

A project focusing on the mapping of educational metrics.

- Integrated course outcomes and program outcomes using Python.
- Developed a web application for mapping educational outcomes.

#### Visualizing Career Paths: An Analytical Dendrogram Approach

01/2023 - 12/2023

An analytical project visualizing career options and paths.

- Created an analytical dendrogram to visualize career paths.
- Utilized data visualization techniques for educational insights.
